

Carlo Vilorio

Software & AI Developer | IT Support Specialist

Waipahu, HI • carlovil@hawaii.edu • github.com/carloviloria808 • carloportfolio.vercel.app

SUMMARY

CS graduate (UH Mānoa, 2024) actively building full-stack and AI-powered applications. Quick learner with hands-on experience across the full dev lifecycle — from database design to deployment. Collaborative team player seeking an entry-level software or IT role at a Hawaii-based tech company.

TECHNICAL SKILLS

Languages	Python, Java, C#, JavaScript, HTML/CSS
Frameworks & DBs	React, Node.js, MySQL
AI / ML	OpenAI GPT API, Claude (Anthropic), scikit-learn, Jupyter Notebooks, LLM prompt engineering
Tools & Platforms	Linux/Unix, Git/GitHub, Docker, VS Code, IntelliJ, Figma
IT Support	Hardware/software/network troubleshooting, ticketing systems, security best practices
Other	Agile/Scrum

EXPERIENCE

TFTools — Full-Stack Web Application Developer (In Progress)

Jan 2025 – Present

Personal Project • github.com/carloviloria808 • tft-tools.vercel.app

- Building a full-stack app with C#, ASP.NET Core, and React using industry-standard separation of concerns across Models, Controllers, and Data Context layers.
- Designed a SQL Server relational schema with EF Core (Code First); built a RESTful API handling nested objects, junction tables, and circular reference serialization.
- Documented and tested all endpoints via Scalar (OpenAPI); configured CORS for secure React-to-backend communication.

MyAIRealtor — Full-Stack AI Web Application Developer

Jun 2024 – Dec 2024

Group Project • github.com/my-ai-realtor/my-ai-realtor-app

- Built an AI-powered real estate platform using React, Node.js, and the OpenAI GPT API to deliver personalized property recommendations via a conversational interface.
- Implemented a data analysis pipeline ingesting listing data, running statistical comparisons, and surfacing ranked results through natural-language queries.

Academia Arena — Web & Backend Developer

Jan 2024 – May 2024

Group Project • academia-arena.github.io

- Designed a gamified educational platform with JavaScript, Node.js, and MySQL; integrated live leaderboards and multi-user session tracking.
- Led UX design from Figma wireframes to functional prototype; followed Agile/Scrum with sprint planning and retrospectives.

Teaching Assistant — Java / Object-Oriented Programming

Jan 2021 – May 2022

Department of Information & Computer Sciences — UH Mānoa

- Supported 3 lab sections per week, guiding 60+ students through debugging, compiling, and testing Java programs in Linux VM environments.
- Explained OOP concepts using plain-language analogies and provided one-on-one office-hour support tailored to each student's skill level.

EDUCATION

BS, Computer Science — University of Hawai'i at Mānoa

Aug 2018 – Dec 2024

AA, Liberal Arts — Honolulu Community College

Aug 2016 – May 2018

ADDITIONAL

Languages: English, Tagalog, Korean

Security: DoD Secret clearance eligible

Clubs: Grey Hats (Cybersecurity), Game Dev, Esports
